## 9<sup>th</sup> European Deaf Cycling Championships 23-28 March 2021 Alanya, Turkey

### Pros of the organization

- The organisation of 9<sup>th</sup> European Deaf Cycling Championships was good, the buses and the races started on time.
- The cooperation between EDSO representatives, and the OC during the event went well.
- Office EDSO Representative: The poor Wi-Fi connection made it difficult for the EDSO Representative to perform normal activities. The meeting Room was the same as the Office Room.
- The hotel and the food were very excellent.
- The 4 Technical meetings were well organized. Only the 1st meeting was less due to the unclear agreements with the OC and the referees.
- Great respect to the participants and organization for making this EC take place in this difficult Covid-19 situation.

### Cons of the organization

- Preparations with the OC could be better. Everything had to be recorded in a short time with too few meetings and without a physical inspection beforehand.
- Social Media: Small information from OC (only daily update Facebook Turkish Deaf Sport Federation – not by OC) and bad Wifi connection for the foreigners.
- Too few deaf employees for the OC. Especially in the field of International Sign

### Special notes

- It was an exceptional edition for the following reasons:
  - This is the first EC under the auspices of EDSO since the outbreak of the Corona pandemic in March 2020. In December 2019, the last EC took place with the EC Futsal.
  - Normally this would take place in October 2020, but the pandemic has postponed this to March 2021. It was only decided on February 22, 2021 that this will continue after consultation with the OC and also based on the number of pre-registrations.
  - That is why the list of names (Form 3) was now requested at 2 weeks instead of 1 month.
  - There was no on-site inspection and the collaboration took place via email, WhatsApp and 1 Zoom meeting.
  - We would have liked an ultimate Zoom meeting with the OC on March 16, but this was not carried out. That is why there were still some problems before the start of this EC. (control medals - diploma - preparation 1st Technical meeting, ...)
  - Due to the lack of a Technical Director Cycling, Jan Van den Braembussche assumed a double task in the beginning. That is why he asked fellow board member Ota Pansky to assist him in mutual conversations, for which thank you very much!
  - Jan himself could not go to Turkey because the government measures from his country do not allow this due to a ban on foreign movements until April 19, 2021 because of Covid-19. (Only for professional athletes and for professional conditions).
  - That is why from March 21 he was in constant online contact with Ota and the OC on site for the necessary administration and guidelines. This went more or less smoothly. The biggest problem was sometimes the weak Wi-Fi connection. Because of the Covid-19 conditions this was good, but a physical presence is always better.
  - Despite the then situation with Covid-19 in the Czech Republic, Ota Pansky was able to make the move to Alanya after having completed the Covid-19 tests.
  - All participants and officials were tested on Covid-19 on arrival and departure. All results were negative.
  - There was a problem with 1 country on the return flight due to non-approved tests. These persons have had to stay an extra night in Istanbul after a retest and have to book a new flight with extra costs.

## 9<sup>th</sup> European Deaf Cycling Championships 23-28 March 2021 Alanya, Turkey

- Registration participants: Based on Form 2, France and Poland opted out after February 25 from submitting Form 3. As a result, the Team Time Trial was cancelled because it did not comply with EDSO regulations that require at least 4 participants. After submitting Form 3, Greece with 1 participant still cancelled a few days before the start of this EC. Without Covid-19 we think it would have been an edition with a record number of participants, especially among the women. For men, this would be stable after the last record edition of 2016.
- Positive are the new participants from countries Portugal and normally also from Greece and Poland without Covid-19.
- doping tests: There has been no doping control.
- Protest: 1 protest was filed after the Road Race that was admissible and in full justice for non-sporting attitude towards a competitor.
- At last many thanks to Turkish Deaf Sport Federation for hosting this event and to OC for their excellent work!!

### Short report Technical meeting and future EC Cycling

- After the dismissal of the previous TD Gottfried Paulus at the end of 2019 after years of services, the search for a new TD was very difficult. Thanks to Ota's conversations with Julius Matzovicik, Julius is willing to take on a double function in addition to TD Mountainbike and now also TD Cycling. After completing the formalities and approval of the EDSO Board, he can start his position.
- On the negative side, most of the TD and / or managers of the countries were hearing persons who do not know an International Sign. The communication was sometimes confusing only in English spoken language. The regulations say that International Sign is the language used.
- Collaboration with UEC: For the 3rd time we received official Championship jerseys from UEC. It would be positive if EDSO makes a collaboration agreement with UEC for the future.
- Candidates follow EC:
  - EC Mountain bike 2022: Portugal is interested in this organization (the date will have to be in the fall because the Deaflympics has been moved to May 2022)
  - EC Cycling 2024: Currently there is no candidate for organization

REPORT EDCC 2021

9<sup>th</sup> European Deaf Cycling Championships  
23-28 March 2021 Alanya, Turkey

**CONCLUSION**

- Taking into account the Corona pandemic and the short time to organize everything perfectly, we can speak of a very successful championship. The Turkish region of Alanya is a good place in Turkey for cycling organizations.
